Short Lines Snatch a Game From

WAS A GARRISON FINISH

SCORE WAS SHORT LINE 3, OG-DEN 5, WHEN NINTH BEGAN.

Then the Short Lines Went In and Beckwith Went Up, With the Result That the Locals Secured Three Runs and the Game—Baseball Tournament Proposed.

With the score 5 to 3 against them in the ninth inning yesterday, the Short Lines made a Garrison finish of it and pulled the game out of the fire.

Mr. Beckwith of Ogden, although somewhat severely punished all through the game, kept his head until the fatal ninth. Unnerved by a bad error by Mc-Gregor, he allowed a hit and gave two passes in succession, forcing in a run. A neat single by Bennett scored two more, and for the first time in nearly three months the Short Lines had beat-en Ogden.

em Ogden.

The game was a good one all through, only marred by wrangling. This was of the most approved Short Line-Ogden order, served up with the usual plensing accompaniments of cuss words and fist-shaking. It required three umpires to finish the game. Two of them, Billy Griffiths and Frank Groesbeck, got disgusted at the compliments handed them by the players and ritired after a couple of innings apieco. There was some difficulty in finding another martyr, but at last Tom Osborne consented to act.

to act.

"He's all right," shouted a fan, as Osborne peeled his coat and took command. "He's got sand; he's in the sugar business." And the players evidently had a healthy respect for Tem's reputed prowess with his fists, for they let him discreetly alone and he finished

the game.

But barring the kicking, the game was well worth seeing. It was remarkably free from errors and was sprinkled with nice stick work and neat work in the field. Both pitchers were steady as rocks and gave very few passes. They were backed up well and received capital support on the whole.

Tallies Were Scarce.

Tallies Were Scarce.

Rums were scarce as icicles in summertime, in the earlier innings, and the game was anybody's at any stage. The Short Lines got one in the first by a hit by Bennett, McGregor's wild throw and Taylor's scarcifice. Taylor poked out a long hit into deep left center in the fourth, which he succeeded in stretching into a home run. McFarlane got first on Ferrin's poor throw in the fifth, was advanced to second when Beckwith passed Kidder to first, and scored on Bennett's hit.

Ogden got her first run in the fifth, when Schnable hit for two bases and scored on Bennett's hit.

Ogden got her first run in the fifth, when Schnable hit for two bases and scored on Bennett's hit.

Ogden got her first run in the seventh and Ogden got two more. She tied the score in the next on a gift to Ferrin, McFarlane's error, and two successive hits by Schnable and Bluth. Kidder gave signs of weakening in the seventh and Ogden got two more. Hansford singled, Crandall had four bad ones, Beckwith hit to Hughey and he threw over Taylor's head, allowing hand ones, Beckwith hit to Hughey and he threw over Taylor's head, allowing hand ones, Beckwith he did not gather in: McFarlane and then Mr. Taylor relieved Kidder and pitched steady ball, shutting out ogden wise wild. On the sidelines a small meb of howling boys jarred the sent Kidder and Hopkins to first on bails. This forced in Griggs, and the crowd went wild. On the sidelines a small meb of howling boys jarred the stronghere with yells and catcalls like an insane asylum on a spree, and the result was that Beckwith let Bennett send out a single into right field, which stored both McFarlane and Kidder and twen the game.

Proposed Series of Games Between

A proposition was made yesterday for a baseball tournament between the Og-dens and the reorganized Short Lines to take place in this city and Ogden during conference week. take place in this city and Ogden during conference week.

The plan as outlined yesterday was for a series of seven or nine games between the two nines. If the proper interest can be worked up a purse will be offered for the winner of the series. It is expected that the majority of the games will be played att Walker's field if arrangements can be made so that the present exorbitant charges for the use of the field will be reduced. Otherwise three of the games will be played here, three at Lagoon and three in Ogden.

The scheme seems a good one now that Sait Lake has a nine that can hold its own with the Ogden team, and baseball fans the much interested in the outcome of the negetiations for it.

BOXING EXHIBITION THURSDAY

PROFESSOR DUTCHEY PROMOTES GLOVE CONTESTS AT CALDER'S.

Five Bouts On the Programme, In-cluding Twenty-round Contest Be-

Calder's park at 8 o'clock Thursday

Calder's park at 8 o'clock Thursday evening.

Five bouts are on the programme, all of which ought to be interesting, from the names of the men who will be engaged. The principal event of the evening will be a twenty-round go between Tom Daley and Joe Morris, a Texas heavyweight, who has a long record of victories to his credit. Morris has just arrived in town and seems like a husky and redoubtable fighter. Then there will be a ten-round bout between Joe Cotton and Jack Weday, who is anxious to redeem himself from the record he made a fortnight ago.

Three, fast six-round matches are scheduled as the preliminaries for the big matches. Professor Dutchey will face Billy Lypott: the Mason brothers, two dever young local lightweights, will box and a couple of soldiers of the Ninth cavalry will also give an exhibition.

tion.

The programme is a good one, and as there has been no boxing for a long period in this city, the exhibition ought to attract considerable attention from

the local sports. Ammunition For Transvaal. Lourenzo Marquis, Delagoa Bay, Soph 9.—The French steamer Santa Fe, which sailed from Havre, July 25, for Madagascar, via Dakar, Aug. 10, has arrived here with sixty-three cases of ammunition for the Transvaal governEveling.

NEW THING IN SALT LAKE

FIRST TIME SUCH RACES HAVE BEEN ATTEMPTED.

caleny about the twenty-four-hour and six-day races which are soon to take place at the Salt Palace track. The former eyent will begin on the evening of Monday, Sept. 18, and will last until Tuesday evening, Sept. 19.

On the eastern tracks, it is usually the custom to give short races and handicap events during the progress of the big race, but owing to the nature of the Palace track, the steepness of the barks and its narrowness, it is probable that this will be considered too dangerous to attempt here.

The twenty-four-hour race will be an event of much interest. Nearly all the fast professionals are entered, and with the distance they must ride to earn any money, the race will be a speed away throughout. The winner must cover at least 400 miles, which will necessitate a seventeen-mile-an-hour gait throughout, so there will be no loafing. The race, according to present plans, will be unpaced, but if Lawson's petroleum motorcycle arrives in time, it is possible that it may be utilized by the Salt Palace management to haul the riders, around a portion of the distance. The entries in the race include Lawson, Julius, Turville, Furman, Caine, Emery, Parazier, Ensign, Christensen and several others. If Tom Barnaby, an eastern man, who is on his way here, reaches this city in time, he also will participate.

There is some doubt whether there will be any six-day race on the Palace track, although Lawson continues preparing for it. Manager Schefski does not believe the race will be a success financially, and is loath to promote it. If he refuses to give Lawson an opportunity to race on the Palace track the Swede will probably go out to Calder's park to race, but he prefers to run it on the Palace track if arrangements can be made. Julius will ride with him and Tom Barnaby may also participate.

Turville and Chapman Ran an Unavailing Bluff.

There was a slight falling off in attendance at the races Friday night, and some surprise was expressed thereat. The reason was that neither Turville nor Chapman appeared in the list of entries in the evening's races, as published in the papers, and thereby hangs a tale. The prizes offered in the professional races was published. hangs a tale. The prizes offered in the professional races were noticeably small for that evening, as it was an "off" night with no special events. But late on Thursday night the strikers, finding their protests unavailing, delate on Thursday night the strikers, finding their protests unavailing, decided to enter. YESTERDAY'S CRICKET MATCH

GOOD WORK BY LOCAL ELEVENS AT CLUB GROUNDS.

A Number of New Men Appear, Who Will Materially Strengthen Salt Lake's Eleven.

There was an interesting practice match of cricket on the South West Temple street ground yesterday afternoon. Mr. Collis' cieven defeated Mr. Robb's eleven by a score of 57 to 48.

The match was notable for the number of new men it brought out. Several oid cricketers who have not yet appeared and on Sait Lake fields appeared, and some of them showed up wonderfully well. One new man, Mr. A. Collis, formerly of the Chicago Cricket club, made a particularly good showing. He is an old hand at the game, and is a valuable addition to the local eleven. Mr. Donald Stuart also created a good impression, as did also, Mr. Reid.

The best work of the day at the wickets was by Arthur Davies and George Wilson. Davies scored 32 and not out, making a number of long hits and leg drives that were pretty to witness. Wilson is one of the surest hitters among the local cricketers, and he bowis a good length and is hard to score from Reid also got into double figures, scoring 10, and he did good work in the field as well. Davies' bowling was again a feature, and so was that of "Sandv" Robb.

WHAT IS HAY FEVER?

So many patients have applied to Drs. Shores & Shores for treatment lately who have been suffering from Hay Fever and did not know what their trouble was, that Drs. Shores have decided to explain the symptoms, effects and treatment of Hay Fever, that all may tell it at a glance.

Hay Fever is a disease common among all classes of people, but especially to be found among the better educated and nervous class. It is a catarrhal affection, with a strong hereditary tendency, often leaving the patient with a chronic nasal catarrh, asthma or some bronchial affection.

In the beginning of an attack of Hay Fever the patient experiences at sense of uneasiness about the mastl passages, with a slight disposition to sneeze. Gradually these symptoms increase, and often there is an intersection of the mastle passages, with a profuse watery discharge, which necessitate the constant use of the handkerthief. In aggravated cases the discharge drips continuary from the nose; later the mucuous membrane becomes so congested that the secretions present a gravish color. The inflamed mutous membrane naturally causes more or less stenosis, or narrowing, or closing of the masal passages, which adds greatly to the discomfort of the sufferer, oftentimes tee nasa, passages are entirely closed up.

If the patient lies on the side, the masal passage which is uppermost becomes open, while the fluid collects in the parts below; or, if the patient lies on the back, the flow passes to the rear portion, causing a complete stoppage of the nasal passages. The fluids which escape from the nose are often irritating, and very frequently give rise to irritation around the opening of the nose and lip, and sometimes even result in eczema. The eyes become congested and the lips red and itching. If the disease is allowed to run, an attack of asthma often sets in. The asthmatic symptoms are usually confined to the night time, although the waking hours are often characterized by shortness of breathing, which the patient describes as wheezing.

Hay Fever is a
